

# Barokes granted European patent for innovative Vinsafe™ technology

Barokes Wines have developed the innovative and patented Vinsafe™ wine packaging process which enables premium quality wine to be canned with stability and longevity. Put together by a Master of Wine, this unique Australian invention is already opening new markets for wine geographically and demographically, thereby increasing the overall consumption of quality Australian wine. Nine years of R&D have gone into the creation of this purpose built product for the global wine market.

Barokes operates on a global basis, producing and selling their range of premium wines in Australia and exporting to a number of overseas markets throughout Asia, Europe, USA, Canada, New Zealand and the Middle East.

The granting of the European patent for Vinsafe™ is a significant achievement for Barokes and a reward for Australian innovation. This patent covers the following 25 EU member countries:

|                 |                |                |           |            |
|-----------------|----------------|----------------|-----------|------------|
| The Netherlands | Germany        | Belgium        | France    | Austria    |
| Spain           | United Kingdom | Italy          | Denmark   | Luxembourg |
| Ireland         | Portugal       | Czech Republic | Poland    | Sweden     |
| Estonia         | Finland        | Switzerland    | Lithuania | Slovenia   |
| Latvia          | Malta          | Greece         | Slovakia  | Cyprus     |

*"It is widely acknowledged that the European Patent Office has a very high standard for the examination of patent applications. This grant is therefore an important recognition of the significant innovation that our clients have achieved. Europe is also a major wine consuming market, and the grant of the European patent will no doubt assist Barokes Wines' export opportunities for both their wine product as well as their technology."*

**David Gibson, Callinan Lawrie Patent & Trade Mark Attorneys**

Barokes produce the only patented wine in a can product in the World. Patents have already been granted to Barokes for their Vinsafe™ process in Australia, Japan, New Zealand, Singapore and South Africa. Additionally, patents are pending in other major countries in North America, South America and Asia.

Barokes wine in a can is available nationally in Dan Murphy's, IGA, David Jones and selected premium liquor outlets.
